DETAILED ACTION

Reasons for Allowance

1. Claims 1-3 and 5-17 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of Helmut Bölcskei and Arogyaswami J. Paulraj's "**Multiple-Input Multiple-Output (MIMO) Wireless Systems**", hereinafter referred to as Bölcskei and Ma (U.S. Patent No. 7,362,794), hereinafter referred to as Ma, fail individually and combined to anticipate or render obvious the claimed combination of a structure and method of a communication system comprising a de-multiplexer for receiving data and outputting the data into a plurality of parallel data streams, a plurality of space-time block encoders that output the data streams after encoding a plurality of space-path spreaders that are pre-designed to pre-suppress MAI and pre-equalize multiple paths in the system and a plurality of transmit antennas that transmit the outputted data through multiple paths.

Bölcskei teaches of the data stream to be transmitted is de-multiplexed into M_T lower rate streams which are then simultaneously sent from the M_T transmit antennas after coding and modulation. Each receive antenna observes a superposition of the transmitted signals. The receiver then separates them into constituent data streams and re-multiplexes them to recover the original data stream. Bölcskei also teaches of transmit diversity utilizing a multiple transmit antennas and space-time block coding which uses receive and transmit antennas and simultaneously transmits two signals from two antennas. Bölcskei fails to teach of space-path spreaders.

Ma teaches of using orthogonal spreading codes to reduce multiple access interference caused by a loss of orthogonality between multiple spread spectrum communications signals. Ma fails to teach of the spreading codes being different and pre-designed to pre-suppress MAU and pre-equalize multiple paths in the communications system. Ma also fails to teach of the space-path spreaders being selected to adjust a diversity gain and transmission speed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
